

See nothing, hear everything

The CCM683 is a true high performance ceiling-mount speaker. The speaker features a 200mm (8in) woven blue Kevlar® cone bass/midrange driver and an aluminium tweeter in a neat circular die-cast chassis. The tweeter's housing pivots for adjustable off-axis treble response and the die-cast chassis provides extra rigidity that results in a cleaner, faster bass. The speaker also has a three-position EQ switch for a better off-axis response. The blue Kevlar® cone means that the unit is well hidden behind the grille but still produces a remarkably clear and dynamic sound.

Technical Specifications

Description	2-way in-ceiling system
Drive Units	1x ø25mm (1 in) Nautilus™ swirl loaded aluminium dome tweeter 1x ø200mm (8in) blue Kevlar® cone bass/midrange
Frequency Range (-6dB)	35Hz – 50kHz
Recommended Amp Power	25 – 130w
Sensitivity SPL (2.83V, 1m)	88dB
Impedance Nominal (min)	8Ω (4.5Ω)
Frame diameter	290mm (11.4in)
Cut-out diameter	250mm (9.8in)
Depth behind surface	133mm (5.2in)
Protrusion	4mm (0.2in)
Pre-mount Kit	C8
Back Box	6C
